Hello there! We noticed you wanted to boot into SX OS but you don't have a license yet!
Not to worry, you can still boot into SX OS, but some features will be disabled until you activate your license!
To get you started, we will now generate a file called license-request.dat for this Switch Console and save it to the microSD card.

Success! The file license-request.dat has been saved to your microSD card.
You can now continue booting into SX OS and activate your license online directly with your Switch Console and an Internet connection.
Or you can upload the license-request.dat file manually to https://sx.xecuter.com with your browser and follow the instructions there to claim your license.dat file.
